

Supplement: Interviews and Workshop

Interviews

Actor type	Interviews and IDs	Total interviews (meetings)	Total interview partners (Persons)
Municipality of Rotterdam	2R6 R32 R33a,R33b R6	4	5
Higher level government: Province of South Holland	R2	1	1
Social housing associations	2R1a, 2R1b R28	2	3
<i>Community-Based Organisations</i> Energy-focused (Energy cooperation; social enterprise; coaching)	2R8 2R5 R18	3	3
Generic (citizens action group; citizens support)	2R7 2R3 R34	3	3
<i>Installers</i> Installer firms and industry associations	R9 R21 R31 R24 (smaller) R27 (smaller) R26 (association) R5 (association) R25	8	8
Energy-fixers firms	2R2	2	2

Installers Training	R30		
	R13	3	3
	R11		
	R10		
Other (Impact invest fund; energy installation manufacturer)	R7	2	2
	R17		
Total		28	30

The ID system is based on the two underlying and wider studies on installers in energy transitions (codes starting with R) in Rotterdam and another city, and on energy poverty (codes starting with 2R). The last part of the code refers to the chronological order of the timing of the interview. We selected only the interviews that were relevant for this paper and excluded interviews that did not provide information on just heating transitions in Rotterdam. The R refers to Rotterdam.

Workshop stakeholders

<i>Actor type</i>	<i>Number of participants</i>
Municipality	3
CBOs: energy coaches	7
CBOs: generic grassroots organization	6
Housing associations	3
Representatives from Academia	5
Total	24
