

Instruments

Norm deviation (Soellner et al., 2018)

I do not abide by rules I do not like.

I like to test how far I can go.

Sometimes I deliberately don't do what people tell me, just to annoy them.

Intolerance (Beelmann & Karing, 2015)

If someone behaves differently than most people, I do not think it's good.

When people have different opinions, only one of them is definitely right.

If someone thinks differently from me, I can't accept it.

I can't stand it when some people behave differently from what I'm used to.

Rejection of democracy (Authors)

Democracy is the best way to govern a country.

We should have a leadership that governs the country with a firm hand for the good of the public.

Political decisions in a democracy should be supported by the majority of citizens.

Rejection of human rights (Authors)

All people are equal before the law.

All people have freedom of religion.

25 *Conspiracy mentality (Brotherton et al., 2013)*

26 The government is hiding the truth from the public.

27 The spread of certain diseases and viruses is in the interest of certain groups and organizations.

28

29 *Hostility towards foreigners (Decker & Brähler, 2022; Reiser et al., 2021)*

30 Foreigners are taking away our jobs.

31 It's better if cultures keep to themselves.

32 It would be best if our country were inhabited only by real Germans.

33

34 *Affinity for political violence (Moskalenko & McCauley, 2009)*

35 I would participate in a public protest against oppression of my group even if I thought the protest
36 might turn violent.

37 I would support an organization that fights for my group's political and legal rights even if the
38 organization sometimes resorts to violence.
