We moved here because it was halfway between my job and my wife's job

You cannot stop it

Change has been a constant

The school pickup creates connection

I used to know everyone, now, I don't know all these new people

I never noticed this before

AFFORDABILITY
PROFITABILITY
PROFESSIONALISM
ENERGY EFFICIENCY

Nature
Uniqueness
Calm
Garden
Rural identity
Agriculture
Open view
Space
Sunlight
Recognizability
Slowness

This used to be a garden

THIS STREET USED TO HAVE 30 BARS

CLOSED
CLOSED
CLOSED
CLOSED
CLOSED

Bar
Shop
Bakery
Municipality Hall

We'll be always been a farmer's village

From here to that tree we would lose our garden for a public park

There are conflicts of interest

We are losing trust

They don't invest enough in our village

Ambiguity
Anger Uncertainty
Fear

REDEVELOPMENT WILL INCORPORATE THE IDENTITY OF THE VILLAGE

Pop-up attracts people from here and beyond

The pop-up events made us rediscover the factory

The redevelopment of draws the center to this location

CLOSED

The industrial edge attracted us

The old milkfactory is our village's history

THE TRAIN BROUGHT THE MILK TO THE CITY

This valley is a place to find peace, the municipality has to take care of it

There is no more certainty

There was a house where the bridge is now

We will look against a 4 story wall

There is a balance between privacy and connection with the neighbors

Neighbors care for eachother

OWNERSHIP

I used to play here as a kid

Everybody should have sufficient space

I believe that everyone should be able to go around their house without being directly on the street

OWN STYLE

Family

Every house looks different

Neighbors

I am not really from here, I moved here when I got married

Our children won't be able to afford a house here

Sportcenter

Children can walk to the gym and football fields

Football is where we used to spend half of our time

People find eachother in the fight for the preservation of the neighborhood

They used elements of the original facade and kept the village rythm

This is the ugliest village square in Flanders

Citizens organize farmer's markets, street fests and seasonal village parties

We would walk in through the back door

It's unsafe for cyclists

There is a beauty in these edges, this play of heights, rounded corners and layeredness you only appreciate when it's too late

I used to play here with my friends, mischief quickly made it to our parents

My social network expanded but my local network diluted
